

Dependable Power Ltd (Appleby Engineering), leading supplier and installer of diesel generators in New Zealand and the South Pacific Basin. No matter how large or small your project, you can rely on us to deliver dependable power when and where you need it!

Phone: 0800 444 737 – www.dependablepower.co.nz

With over 45 years of industry experience, the company was set up by John Appleby. The business has evolved over the years to become a premier supplier of generators and downstream equipment.

Our supply chain leads to an unrivalled range of products. Included within our scope are suppliers such as Deutz, Volvo, MTU, Perkins, Cummins, Mecc Alte and Newage Stamford. Unique build controls and instrumentation are sourced from Deep Sea Electronics and other leading brands.

What makes us different is the integrated approach to a solution we offer. Developing solutions requires capacity analysis and project management skills, knowledge, expertise and most of all experience with a proven track record. Dependable Power (Appleby Engineering) ticks all the boxes.

This means we can provide a complete solution whatever your industry or requirements. Get in touch today to ensure a dependable power supply for your business, when and where you need it.

Dependable Power Ltd (Appleby Engineering) has the experience and technical know-how required for your job. We have delivered turnkey solutions to a wide range of projects and industries, including the following:

- **Industrial:** You can depend on us to deliver in any situation requiring a constant and reliable power supply. This solution could be in IT or for manufacturing stability, order processing and logistics. If the objective is reduced energy costs, we can supply peak-loading or base-loading options.
- **Communications:** Our Genset solutions provide a guaranteed continuous supply of power to ensure service continuity and the integrity of data and devices.
- **Public and Civil Services:** Hospitals, highways, public transport, medical centres or water treatment plants, we provide complete power solutions that guarantee supply with minimal interruption for these critical services.
- **Agricultural:** Our experience and knowledge cover power supplies for irrigation, milking, and agricultural farm applications.

We are proud to work with
